Re: Biosolids Site Review

Dear Mr. Bailey:

Ohio EPA received an email request on November 7, 2014 from quasar energy group to include the following sites as part of the Ringler Energy, LLC biosolids management program:

<u>Field ID</u>	<u>Ohio EPA Site No.</u>	<u>County</u>	<u>Township</u>
MOQ-08-01	59-00097	Morrow	Westfield
MOQ-08-02	59-00098	Morrow	Peru
MOQ-08-03	59-00099	Morrow	Peru

These sites are owned and operated by **Exemption C** Ohio EPA Site 59-00097 is located southwest of the intersection of Ashley-Westfield Road and Prospect Mount Vernon Road. Ohio EPA Sites 59-00098 and 59-00099 are located on Prospect Mount Vernon Road, approximately 1.0 mile west of Worthington-New Haven Road.

A review of these sites was conducted by Ohio EPA. Consideration was given to soil and landscape characteristics, isolation distances from residences, geology and ground water conditions and the proximity to waterways and wells.

The review indicated that portions of these sites contain hydrologic group D soils. Please refer to the precipitation prohibitions and restrictions for group D soils found in Ohio Administrative Code (OAC) 3745-40-08(B)(2).

These sites are authorized to be included as part of the Ringler Energy biosolids program. This authorization is subject to conditions contained in both the NPDES permit and OAC 3745-40. Conditions contained in the NPDES permit and OAC 3745-40 may differ. In such cases, the more restrictive conditions from either the NPDES permit or OAC 3745-40 shall govern.

Highlights of these conditions are as follows:

November 10, 2014

Page 2 of 2

1. Biosolids shall not be applied in buffer zones.
2. In accordance with federal/state rules, biosolids may not be applied within 33 feet of surface waters of the state.
3. Biosolids application shall be timed to avoid periods of excessive wetness to help prevent runoff from a site.
4. Records for the application of biosolids on these sites shall be maintained in accordance with the requirements found in OAC 3745-40-09(C).

All biosolids beneficially used at these sites shall be injected beneath the surface of the ground or immediately incorporated into the soil.

If you have any questions, please contact me at (614) 644-2150 or via email at betsy.vanwormer@epa.ohio.gov.

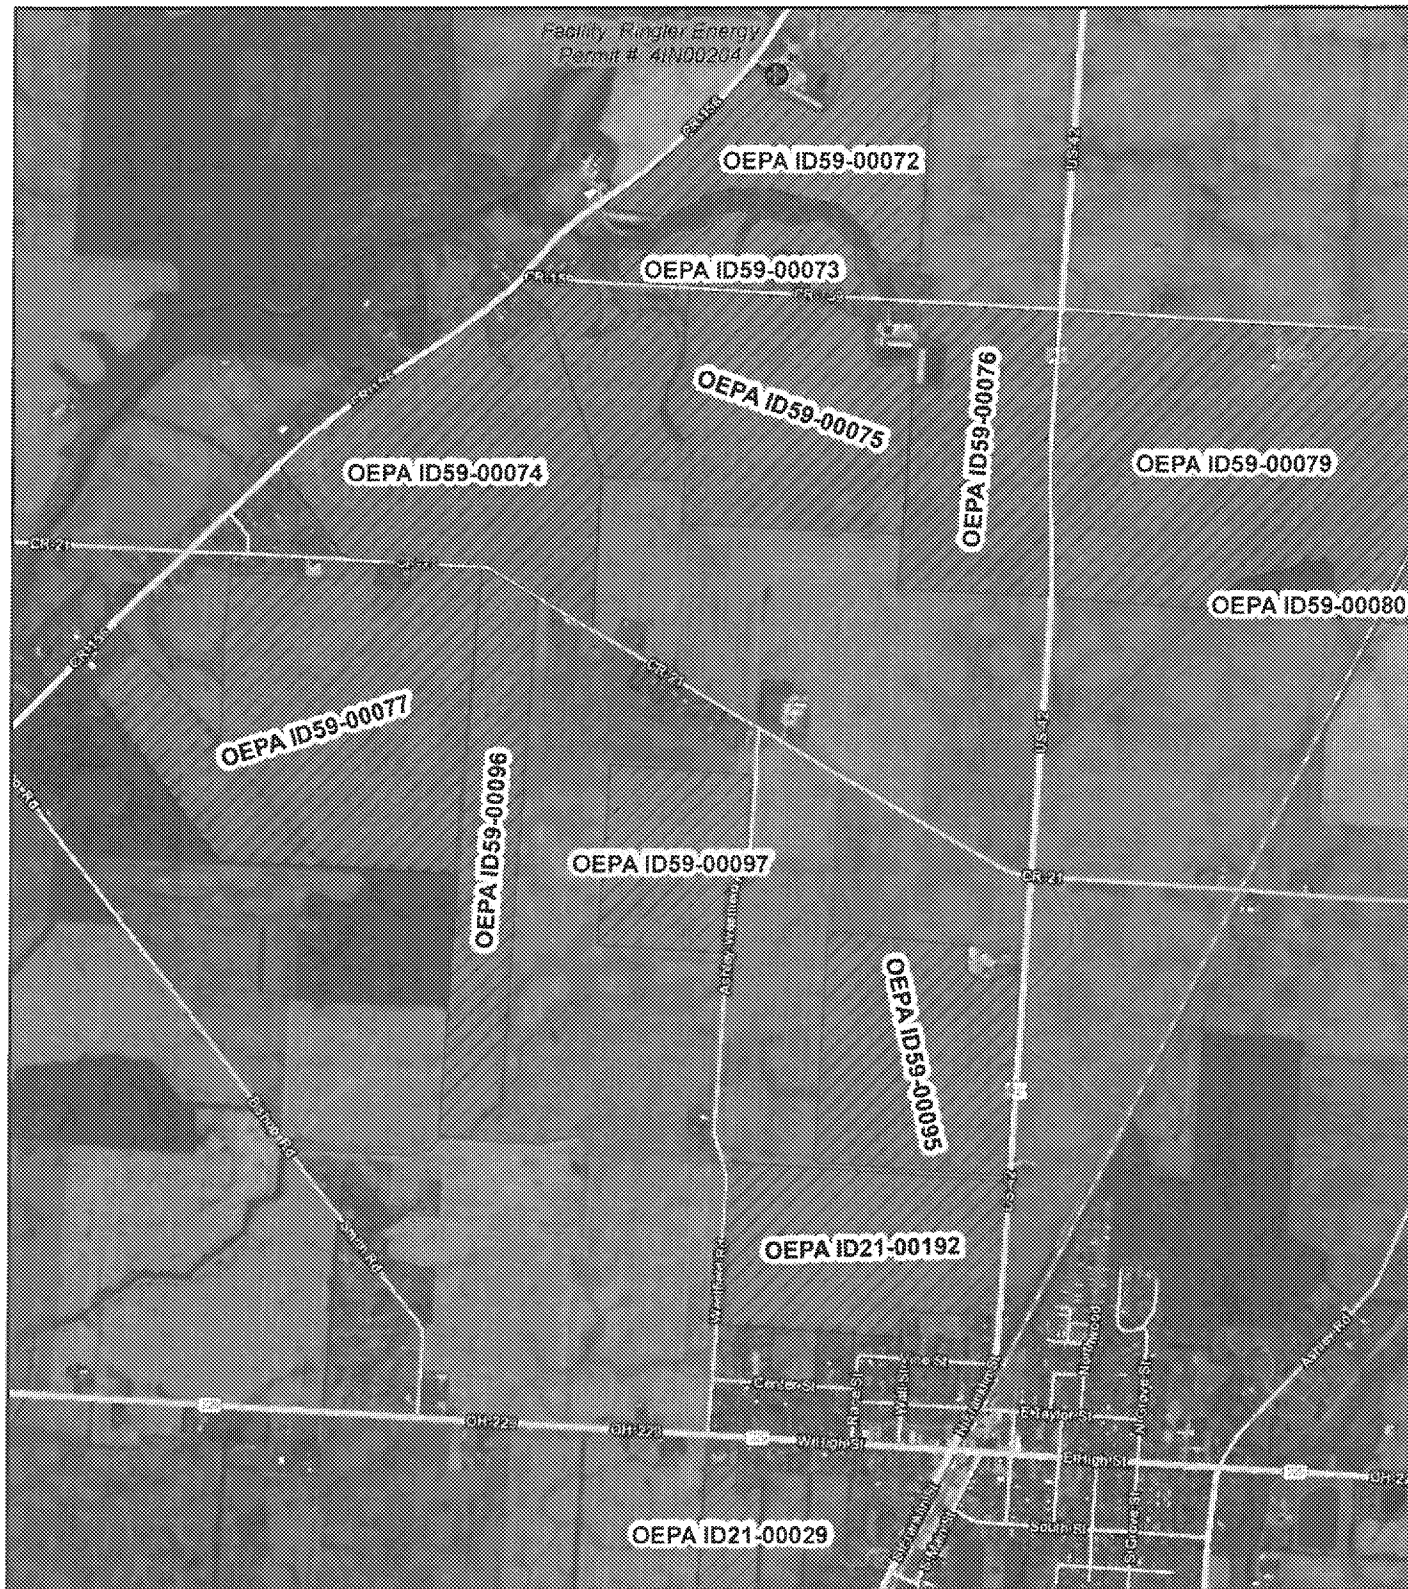

Sincerely,

Betsy P. L. VanWormer, P.E.
